

Babe's Bulletin

December 2005

Let it snow, let it snow, let it snow--

We're ready to hibernate now! Our farming harvest is complete. We had a good crop and really quite nice weather in which to get it out.

Gracia, Thanks, Merci'

Because of your generosity, we again had over 700 lbs. of items for the food shelf in August. They love to see us!

Please Note

Please check to make sure we have your correct mailing address and name on this newsletter. Let us know if something needs to be changed.

Drum Roll Please

For our newest employee! We'd like you to meet Matthew Arons who started with us this past spring. Matthew attends BOLD high school and his family farms in the Bird Island area. We're pleased to

have him with us—he's a great worker, does 4-H horticulture projects and (most important) he puts up with us.

Yay!!! or Nay!!!

We're looking for your feedback on plants. Since we don't get time to try all the varieties we'd like to in our own gardens, we value your experience with them. We're especially interested in the following: Park's Whopper tomato, Sunshine squash and Bonbon squash, Sweet Beauty watermelon, Flambé petunia and Gold Flake mecardonia. If you can give us your feedback on these (or any others you wish), just send us a note or an e-mail at the above address. And if you have photos

of your gardens or containers or produce, we'd love to see them in the spring. Bring them and we'll put them on the bulletin board.

More Parking - YES!

Since we originally underestimated the area needed for parking, we've now added more space on the east end of the greenhouses. It's just a short walk to the entrance and of course we'll help get your plants to your vehicle.

See you in spring!

Brought to you by

Mark your calendars

for home and garden shows coming in 2006. Visit us at:
Glencoe Home & Garden Show
February 18 & 19, 2006

Redwood Falls Home

Improvement Show

March 19 & 20, 2006

New Ulm Home & Self

Improvement Show

March 24, 25, 26, 2006

Beginning in 2006,

we plan to be open for business in September. It's still a good time to plant perennials and we're going to have some beautiful finished fall containers that will look bright and fresh—great for decorating into autumn. We might host a farmer's market or seminar. We're in the planning stage. **We welcome your ideas and suggestions—what would you like available?**
